

Spinneret Plate 96L Ultrasonic Cleaner Baths 3000W Dpf Sky men JP-3061GH

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: Sky men
- Certification: RoHS, CE, FCC, SGS
- Model Number: JP-3061GH
- Minimum Order Quantity: 1
- Price: Negotiation
- Packaging Details: Wooden case
- Delivery Time: In Stock
- Payment Terms: T/T
- Supply Ability: 800 pcs per month

Product Specification

- Model: JP-3061GH
- Tank Volume: 96L
- Ultrasonic Power: 3000W
- Heating Power: 3000W
- Frequency: 40KHz/28KHz
- Internal Tank Size: 800*300*400mm (L*W*H)
- Highlight: **Spinneret Plate Ultrasonic Cleaner Baths,
96L Ultrasonic Cleaner Baths,
3000W Three Tank Ultrasonic Cleaner**

Product Description

Skymer JP-3061GH 96L 3000W Dpf Three Tank Industrial Ultrasonic Cleaner Baths Cleaning

PRODUCT SPECIFICATIONS

No		
1	Model	JP-3060GH (Ultrasonic Cleaning + Filter+ Rising+ Hot Air Drying)
2	1st Tank	Function
		Ultrasonic Cleaning + Filter
		Ultrasonic Frequency
		28/40kHz (other frequency can be customized)
		Tank Material
		SUS 304 (SUS 316 can be customized)
		Inner tank dimension
		800*300*400mm
		Tank Capacity
		77L
		Transducer
		48pcs
		Ultrasonic Power
		1500W
		Heating Power
		4500W
3	2nd tank	Time setting of Ultrasonic
		0~99 hours
		Temperature setting
		Room temperature ~ 95°C adjustable
		Thickness of tank
		1mm
		Drain value
		Yes, in the right side of machine
		Water inlet/outlet
		Yes
4	3rd tank	Filter
		1 set, connect with 1st tank
		Generator
		1 set
5	Lid	Yes, hinged with machine body, with gasket
		Basket load
		200KG
		Function
6	Inner tank dimension	Ultrasonic Cleaning + Rising
		800*300*400mm
		Ultrasonic Power
		1500W
7	Heating Power	4500W
		Function
		Hot Air Drying
		Inner tank dimension
8	Dryer Power	800*300*400mm
		3000W
		Warranty
		1 year warranty for spare parts, all life technical support
9	Certificate	CE, RoHS; FCC, REACH
10	Production time	5 days if there is stock; 20 days if there is no stock

The Reason For Choosing Us

U L T R A S O N I C C L E A N E R

Skymen Brand Ultrasonic Cleaner
Button Panel, Concise and Saving
Effort

VS

Other Brand, Inconvenient Operation

Skymen Brand Concave cylinder
Mouth design, No Overflowing Water
good noise elimination

VS

Other brand cleaning machine flat
cylinder mouth, water is easy to
splash out

Skymen brand using self-developed
ultrasonic generator, digital
automatic frequency scanning
stable output

VS

Other Brands, Using older
mechanical generators

Manufacturing process

Applications:

Commonly used in precision hardware, electronics, semiconductors, watches, jewelry, energy, optics, medicine, automotive manufacturing, electroplating, painting and vacuum coating pretreatment.

Industrial cleaning equipment, ultrasonic cleaning machines are widely used in precision hardware, electronics, semiconductors, watches, jewelry, energy, optics, medicine, automotive manufacturing, electroplating, painting and vacuum coating pretreatment. It is especially suitable for parts with complex surface shapes. Applications

FAQ

Q1.:Can ultrasonic cleaning damage my parts?

A1: Don't worry, no any damage to your objects, but you should choose different models when cleaning different things, I recommend you to clean your jewelry by our home use Ultrasonic cleaner. Or you can consult us if you have no idea of choosing which model.

Q2: Why is a special solution required for cleaning?

A2: The heavy oil and grease is very adherent, the oil cannot be removed very well without detergent, the detergent can emulsify the the oil and grease, then Ultrasonic can remove the oil very easy.

Q3: What cleaning solution should I use?

A3: Stronger acid and stronger alkali are forbidden, because stronger acid and stronger alkali will corrode the tank of machine, our tank material is SUS304, after long time using of stronger acid and stronger alkali, the tank will be damaged. For selecting the detergent, you could consult your local detergent company or supermarket, they can give you more professional advice. We are manufacturer of machine, not very skillful in the selecting of detergent. And the export of detergent in China is very strict.

Q4: What cleaning solution shouldn't I use?

A4: Flammables or solutions with low flash points should never be used. The energy released by bubbles may be exploded for flammable liquids. Strong alkali and Acids should be avoided; they will damage stainless steel tanks.

Q5: What's advantage of Skymen ultrasonic cleaner?

A5: Skymen ultrasonic cleaner is the nice way to have thorough cleaning without damaging objects. It has the functions of cleaning, disinfecting, degreasing, descaling, stripping, burnishing, deflashing, removing rust, dust, oil, etc. make them look new again. It's very safe and easy to operate, proves to be a nice helping hand for you.

Q6: Why do I need to use a basket?

A6: Basket would help to load objects together, and get better cleaning effect.

Q7: What frequency is better for my parts?

A7: Frequency is suggested based on pollutants in the objects. 28kHz frequency is stronger, better for car/motor/truck/vessel parts clean(remove oils, grease, pastes, etc.) 40kHz is better for pcb boards, electronic or other precision parts, etc. Higher precision goods, higher frequency.

Q8: What about the warranty?

A8: 1 Year warranty for For all ultrasonic cleaner. If any technical problem during warranty time, replacement parts will be sent free of charge. And technical support is also available after 1 year

Q9: How do I get the nice ultrasonic cleaning?

A9: Choosing the proper cleaning solution is one of the most important decisions, as well as cleaning at the right temperature, 50~60 can achieve best cleaning effect. cleaning time, and choosing the suitable size and type of ultrasonic cleaner.

Spraying

Condensation

Bubbling

Agitation

Filtration

Drying

Features

1. Digital LED screen display
2. Fast and effective cleaning, convenient for users
3. Clean rings, earrings, necklaces, new features of diamonds,
4. Use only tap water or add a small amount of detergent for better cleaning
5. The cleaning effect is obvious
6. Cleaning items shine like new ones
7. Compact cover design to reduce noise

Cleaning Effect show:

CLEANING EFFECT

Better cleaning when cleaning with detergent

Working Principle:

The principle of the ultrasonic cleaning machine is mainly to convert the sound energy of the power ultrasonic frequency source into mechanical vibration through the transducer, and to irradiate the ultrasonic wave into the cleaning liquid in the groove through the cleaning tank wall. Due to the radiation of the ultrasonic waves, the microbubbles in the liquid in the tank can be kept vibrated by the action of the sound waves. The adsorption of the dirt and the surface of the cleaning member is destroyed, causing fatigue damage of the dirt layer to be rejected, and the vibration of the gas type bubble scrubs the solid surface.
